AMSAT-NA VP Operations, Drew K04MA says that A0-51 is now running two FM repeaters to support contacts by the Boy Scouts celebrating their 100th anniversary this week.

The second repeater is available for Scouting stations, and when not in use by the Boy Scouts, low power stations are welcome. We define low power as 10 watts or less, AND omni or handheld antennas only:

Uplink: 145.880 MHz FM for Scouting contacts

Downlink: 435.150 MHz FM for Scouting contacts

Downlink Power 450 mW

The main repeater is still open for general traffic. The 67 Hz PL access testing continues on this repeater:

Uplink: 145.920 MHz FM for general contacts

Downlink: 435.300 MHz FM for general contacts

Downlink Power 470 mW
